An example document. Not executed by anyone.

Holder: Margaret Ellison Hale / Born 1954

Record K7PF-2QX9 / State of execution: New York

Executed 14 March 2026

I refuse routine vaccines and immunizations.

This refusal does not extend to post-exposure prophylaxis,
which I accept.

This directive concerns immunization only. It is not a
refusal of resuscitation, treatment or continuing care, and
it makes no election as to blood products.
